

# Fall Voice 2016 Poster Presentations

<b>Lacey Adkins, MD</b>	<i>Laryngeal Sarcoidosis: A Review of 9 Cases</i>
<b>Thomas Akshintala, SLP</b>	<i>Vocal Characteristics of Teen, Adult and middle aged Female Carnatic Singers</i>
<b>Jennifer Anderson, MD, MSc, FACS, FRCS©</b>	<i>Effects of Vibration Therapy in Singers: Results of a Randomized placebo-controlled trial</i>
<b>Benjamin Anthony, MD</b>	<i>Treatment of recalcitrant chronic cough using onabotulinumtoxinA</i>
<b>Renata Azevedo, SLP</b>	<i>Perceptual-Auditory and Acoustic Analysis of Air Traffic Controllers' Voices Pre- and Post-Shift</i>
<b>Rachel Barry, Resident</b>	<i>The effect of increased BMI on complication rates during laryngotracheal surgery utilizing jet ventilation</i>
<b>Blair Barton, Resident</b>	<i>Invasive thyroid carcinoma presenting as non-paralytic dysphonia: a case report and review of the literature</i>
<b>Peter Baxter, MD</b>	<i>Presence of human papilloma virus on single use EndoStat fibers following in office-treatment of respiratory papilloma with the KTP laser</i>
<b>Keith Chadwick, MD</b>	<i>Treatment outcomes in isolated amyloidosis of the larynx</i>
<b>Fernando Diaz, MD</b>	<i>Medialization thyroplasty after posterior cordotomy in a patient with bilateral vocal fold paralysis</i>
<b>William Gao, MD</b>	<i>Utility of a low-cost modular phonosurgery simulator: effect on trainee confidence</i>
<b>John Paul Giliberto, MD</b>	<i>Unilateral laryngoscopic findings associated with response to gabapentin therapy in patients with chronic cough.</i>
<b>Amanda Gillespie, PhD, CCC-SLP</b>	<i>The ability of patient-symptom questionnaires to differentiate PVFMD from asthma</i>
<b>Elizabeth Guardiani, MD</b>	<i>Prolapse of the laryngeal ventricle as a complication of childbirth</i>
<b>Avram Hecht, MD, MPH - Resident</b>	<i>Assessment of oral and vaginal human papillomavirus infection from the Nation Health and Nutrition Examination Survey</i>
<b>Josiah Howlett</b>	<i>The Short-Term Effects of Two Meal Choices on Acoustical and Perceptual Measurements of the Singing Voice</i>
<b>Amanda Hu, MD, FRCS</b>	<i>Soft Palate Injuries During Endotracheal Intubation with the Videolaryngoscope</i>
<b>Rachael Hudson, Resident</b>	<i>Use of intralesional steroid injections in the treatment of subglottic stenosis due to granulomatosis with polyangiitis</i>
<b>Michael Johns, MD</b>	<i>Vocal fold injection augmentation using temporary materials can lead to durable voice improvement in some patients with vocal fold paresis, paralysis, or atrophy.</i>
<b>Matthew Kim, MD</b>	<i>The Voice of Autoimmunity: Vocal Fold Bamboo Nodes as a Manifestation of Antisynthetase Syndrome</i>
<b>Emily Kimball, MS</b>	<i>Structurally and Functionally Characterized In Vitro Model of Rabbit Vocal Fold Epithelium</i>
<b>Ann Kolker, SLP</b>	<i>Practical Elicitation Methods for the Voice Range Profile</i>
<b>Gustavo Korn, MD</b>	<i>Differences in the vocal symptoms and associated risk factors between male and female university teachers.</i>
<b>Juliana Litts, MA, CCC-SLP</b>	<i>The effect of vocal fold augmentation on chronic cough in the presence of glottic insufficiency</i>
<b>David Lott, MD</b>	<i>Upper Esophageal Sphincter Evaluation of High Resolution Manometry in Patients with Muscle Tension Dysphagia</i>
<b>Jeffrey Marino, MD</b>	<i>Chemically induced voice rest results in resolution of a vocal process granuloma but persistence of a vocal fold polyp.</i>
<b>Youri Maryn, SLP</b>	<i>Sound level calibration of audio recording systems for clinical speech and voice analysis</i>
<b>Jaime Moore, MD</b>	<i>Longitudinal Assessment of Sing Voice Handicap Index in Undergraduate Singing Students</i>
<b>Robert Reed, PGY2</b>	<i>Survey of Endotracheal Tube Management in the Intensive Care Unit and Risk Factors for Laryngotracheal Complications</i>
<b>Stephen Romeo, Med Student</b>	<i>The "Lasso" Technique for Suture Lateralization in Bilateral Vocal Fold Immobility</i>
<b>Babak Sadoughi, MD</b>	<i>Iatrogenic Granulomas of the Membranous Vocal Fold after Airway Instrumentation</i>
<b>Sandra Saint-Victor, MD</b>	<i>Risk factors and patient perspectives in adult-onset recurrent respiratory papillomatosis</i>
<b>Robin Samlan, PhD, CCC-SLP</b>	<i>Frailty Syndrome, Aging, and Voice Quality</i>
<b>Stephen Schoeff, MD</b>	<i>Corynebacterium spp.: an often unrecognized cause of chronic laryngitis and tracheitis</i>
<b>Hagit Shoffel-Havakuk, MD</b>	<i>Cervical Osteophytes Increase the Risk for Foreign Body Impaction: A 171 Patients Case-Control Study</i>
<b>Hagit Shoffel-Havakuk, MD</b>	<i>Smoking and Vocal Folds' co-morbidities among Patients with Sacular Disorders</i>
<b>Brad Story, Speech Scientist</b>	<i>Speech Performance density as an indicator of clear speech.</i>
<b>Resha Soni, MD</b>	<i>Perceptual Dysphonia and Laryngeal Findings: Need for Earlier Laryngological Referral?</i>
<b>Resha Soni, MD</b>	<i>Treatment of Chronic Cough: Single Institution Experience Utilizing Behavioral Therapy</i>
<b>Kenric Tam, Medical Student</b>	<i>Surgical Management of Supraglottic Stenosis Using Intubationless Optiflow®</i>
<b>Stephanie Teng, MD</b>	<i>Prospective neuropathic cough assessment with tramadol and other pharmacologic agents</i>
<b>Courtney Tipton, MD</b>	<i>Outcomes of Voice Therapy in Singers with Muscle Tension Dysphonia</i>
<b>Lauren Tracy, MD</b>	<i>Perceptual voice outcomes do not predict aerodynamic outcomes after surgical management of non-paralytic glottic incompetence</i>
<b>Nathan Vandjelovic, DO</b>	<i>Changes in polysomnography parameters after sphincter pharyngoplasty for velopharyngeal insufficiency</i>
<b>Christopher Watts, PhD</b>	<i>Cepstral Peak Prominence of Dysphonic Voices Measured from ADSV and Praat: A Instrumental Comparison</i>
<b>Yin Yiu, Resident</b>	<i>Shar Pei Larynx: Relation to Obstructive Sleep Apnea and Other Factors</i>
