

## 2022 Poster Presentations

First	Last	Title of Abstract
Allison	Aaron	The relationship between pitch discrimination and pitch variability: effects of vocal hyperfunction and singing status
Michelle	Adessa	Dysphonia, Hypermobility & Ehlers-Danlos Syndrome: Case Series
David	Adkins	Airway Complications Following Renu Gel Injection Laryngoplasties: A Case Series
Sarah	Almas	Laryngeal Dysfunction in Head and Neck Cancer Survivors
Jennifer	Anderson	Foreign Body Reaction to Silastic following Medialisation Thyroplasty for unilateral vocal fold paralysis.
Christopher	Babu	Long COVID in Laryngology - A Review of the Literature
Hans	Baertsch	Quantifying vocal fold atrophy in age-related and Parkinson's Disease-related vocal atrophy and identifying features associated with dysphonia
Divya	Balchander	Laryngeal Dysfunction in COVID-19: A Systematic Review and Meta-Analysis
Yael	Bensoussan	The VoiceCollab.ai: A new collaborative to fuel Voice AI research through multi-institutional collaborations and innovation
Hayley	Born	#Who: Investigation of who creates laryngology content posted on Instagram
Hayley	Born	#Laryngology: A Standardized Hashtag Ontology
Andrew	Bowen	Complications Following Laser Wedge Excision for Idiopathic Subglottic Stenosis
Johnathan	Brown	Serial in-office intralesional steroid injections as adjunctive treatment for idiopathic subglottic stenosis
Daniel	Buckley	Does the high-definition, live audio platform Cleanfeed more accurately relay clinically important acoustic measures of voice?
Daniel	Buckley	Normative values of cepstral peak prominence measures in typical speakers by sex, speech stimuli, and software type across the lifespan
Estephania	Candelo	Quantitative Analysis of Laryngoscopes in Vocal Fold Paralysis
Adrián	Castillo-Allendes	Could semi-occluded vocal tract exercises be a complementary tool for the treatment of swallowing disorders?
M. Eugenia	Castro	Provider and Patient Satisfaction with Telemedicine Voice Therapy During the COVID-19 Pandemic
Suzanne	Coomer	Transmasculine Attitudes Towards Voice
Tyler	Crosby	The utility of in-office flexible laryngoscopy in predicting videofluoroscopic swallow study findings and dysphagia severity
Sydney	Dacey	Perceptions Around Vocal Health Among Group Fitness Instructors (GFI) & Pilot Use of GFI-specific Voice Handicap Questionnaire
Sarah	Dermody	Respiratory Retraining Therapy for Treatment of Non-ILO Functional Dyspnea
Elliana	DeVore	A Computer Vision Tool for Automated Tracking of Supraglottic Structures from Videoendoscopy
Philip C.	Doyle	Psychophysical Evaluation of Laryngeal Overpressure in Adductor Laryngeal Dystonia
Matthew	Dumican	Using Voice-Related Quality of Life as a Clinical Marker to Screen for Swallowing and Cough Function in Parkinson's Disease
Christopher	Dwyer	Comparison of Outcome Measures (Subjective, Objective and Patient-Based) in Laryngeal Dystonia Treatment with Botulinum Toxin A Injection
Christopher	Dwyer	Patient Reported Outcome Measures in Laryngeal Movement Disorders: Exploring the Patient's Preference
Evan	Edwards	Perspectives And Experiences Of College-Aged Singers Regarding Voice Injury And Visiting The ENT: A Phenomenological Approach
Samantha	Fabian	Chronic Cough: Evaluation of Patients' Success in Completing Cough Suppression Therapy
Taylor	Freeman	Age Related Trends in Treatment of Recurrent Respiratory Papillomatosis Patients
Shirley	Gherson	Novel approach to training Ventricular Vocal Fold Phonation: A pediatric case-study
Raluca	Gray	Use of the Peak Flow Meter in Subglottic Stenosis: Should it become standard of care?
Anna Beatriz	Guerrero	The Assessment of Quality of Life in Individuals with Cleft Lip and/or Palate in Speech Pathology Practice
Desi	Gutierrez	Does gap matter: The role of glottal insufficiency in treatment decision making in presbyphonia
Desi	Gutierrez	Exploring models of interdisciplinary voice care
Yvonne	Hao	Systematic Review And Meta-analysis Of Validated Quality Of Life Outcomes In Voice Feminization
Edie	Hapner	Validation of Phonation Resistance Training Therapy Utilizing the Theoretical Domains Framework
Karen	Hegland	Acoustic and audio-perceptual voice differences between deep brain stimulator target site and laterality in people with Parkinson disease
Markus	Hess	Fiber guided laser surgery: Do we have to stick to laser energy settings ?
Jesse	Hoffmeister	Measurement of Vocal Motor Learning through Targeted Pitch Contour Modulation
Keiko	Ishikawa	The Cognitive Effort Associated with Speaking Clearly in Reverberant Environments: A Pilot Study
Nicolette	Jabbour	Socioeconomic Impact on Swallow Therapy Attendance
Nikitha	Jona	Demographics and Clinical Comorbidities Associated with the Spread of New-Onset Laryngeal Dystonia
Veena	Kallambettu	Improvement in laryngeal adductor reflex in a patient with late radiation associated dysphagia: A case study
Mara	Kapsner-Smith	Visual Sort-and-Rate for Ratings of Strain in Adductor Laryngeal Dystonia and Vocal Hyperfunction
Juhi	Katta	The impact of spasmodic dysphonia patient demographics on time to seek care: a retrospective chart review
Larissa	Kelloway	Gains in singers' vocal quality following Pilates participation

Nergis	Khan	Safety and Utility of Transnasal Humidified Rapid-Insufflation Ventilatory Exchange for Laser Laryngeal Surgery
Jessica	Kim	Onset and Diagnosis of Voice Disorders in Patients with Chronic Refractory Cough
Hannah	Kuhar	Retrospective Investigation of Stroboscopy Findings among Patients Seeking Gender-Affirming Voice Care
Brandon	LaBarge	Comparison of voice therapy outcomes: clinic vs telehealth
Taylor	Lackey	How Safe is Transnasal Tracheoscopy?
Antonia	Lagos	Short interval botulinum toxin chemodenervation for laryngeal dystonia and essential voice tremor
Emilie	Lalonde Myers	Laryngospasm in Amyotrophic Lateral Sclerosis
Jonelyn	Langenstein	Influence of different weightlifting breathing techniques on vocal fold position
Christian	Lava	Comparison of Botulinum Toxin Thyroarytenoid Injection Dosing for Adductor Spasmodic Dysphonia with and without Comorbid Essential Voice Tremor
Christian	Lava	Low-Dose Botulinum Toxin Injection in Treatment of Adductor Spasmodic Dysphonia
Aleeza	Leder Macek	Racial and Socioeconomic Characteristics of Patients with Voice Disorders Presenting to Academic Versus Safety Net Hospitals
Sang Min	Lee	Efficacy of Sodium Alginate on Laryngectomized Patients with Esophageal Dysphagia
Thomas	Lepley	Evaluation of dysphagia outcomes following complex Anterior Cervical Discectomy and Fusion Surgery necessitating otolaryngologist assistance
Gabriela	Lilly	Efficacy of Corticosteroids in Management of Chronic Cough
Youri	Maryn	Toward sham techniques in voice treatment outcomes research ... how to not affect the voice?
Youri	Maryn	Are self-perceived physical fitness and vocal functioning correlated in elderly?
Courtney	McClutchy	The Impact of Inspiratory Muscle Strength Training on Vocal Loudness in Individuals with Parkinson Disease: A Case Series
Sean	McDermott	A Modified Topical Laryngeal Anesthetic Technique for Minimizing Cough in the Era of the Coronavirus Pandemic
Richard	McHugh	Case Report of a Laryngeal Fracture and Proposal of a New Treatment Paradigm
Noah	Millman	Gauging Stakeholder Perspectives on Artificial Intelligence in Gender-Affirming Voice Care
Jake	Morgan	Crossing the Two-Week Diflucan Benchmark: A Case Series of Fungal Laryngitis
Danielle	Morrison	3D Printed Adjustable Cricothyroidotomy Training Model with Blood-Flow
Michael	Mullen	Impact of Vocal Fold Augmentation on Pneumonia Rates
Chaya	Nanjundeswaran	Vocal Fatigue Index Factors May Predict Differential Treatment for Teachers with Vocal Fatigue
Matthew	Naunheim	Voice Disorders Associated With Use of Inhaled Corticosteroids
Nathaniel	Neptune	Evaluating the Safety of High Flow Nasal Oxygenation in Transoral Laser Microsurgery
Alvin	Nguyen	Upper Airway and Tracheostomy Management in COVID-19 Patients: A Long-Term Acute Care Hospital (LTACH)
Ashli	O'Rourke	The Impact of Cervical Spinal Disease on Pharyngeal Swallowing Function
Eseosa	Odigie	Are Mobile Applications in Laryngology designed for all patients? An Assessment of Quality, Functionality, Health Literacy, Readability, Accessibility and Representativity
Yael	Oestreicher-Kedem	Voice after direct transvestibular feminization thyroid laryngochoondroplasty
Ilan	Palte	Tracking Tracheostomy Practices Early in the COVID-19 Pandemic: What Has Changed?
Mollie	Perryman	Impact of Patient Reported Factors in Post-Laryngectomy Voice Rehabilitation
Jessica	Pietrowski	Swallowing Impairment in Adults with Duchenne's Muscular Dystrophy: A Case Series
Sapir	Pinhas	How to keep your voice when you Zoom out: identifying factors that influence vocal habits during online video meetings.
Michal	Plocienniczak	Impact of Race on Laryngotracheal Stenosis Etiology and Outcomes.
Michal	Plocienniczak	Cultural Perceptions of Flexible Nasolaryngoscopy
Emily	Plowman	Distinct Surgical and Endoluminal Factors Associated with Aspiration and Vocal Fold Paralysis in Adult Cardiovascular Surgical Patients.
Kaylee	Purpura	Long-term Improvement of Dysphagia Following Surgical Treatment for Diffuse Idiopathic Skeletal Hyperostosis
Barbara	Rajski	Dysphagia Outcomes in COVID-19 Patients: Experiences in Long-Term Acute Care Hospital (LTACH)
Lex	Rakowski	Voice Therapy In the Operating Room: A multidisciplinary approach to medialization thyroplasty
Marisa	Ryan	Comparison of Cough Severity Index and Leicester Cough Questionnaire
Leah	Sax	Identifying Gaps in Laryngological Care for Transgender Populations: A Cross-Sectional Survey
Amar	Sheth	Comparing corticosteroids for superior laryngeal nerve blocks: Are non-particulate corticosteroids effective and safer for patients?
Isaac	Shochat	DIY in laryngology – low-cost stroboscopy
Elizabeth	Shuman	Laser Safety Timeout: Quality Improvement at a Tertiary Care Center
Katie	Spielbauer	Patient Experience with In-Office Intralesional Steroid Injections for Treatment of Subglottic Stenosis
Sheila	Stager	Studying Acoustic Measures of Glottal Stop Production in Relation to Neural Recovery in Unilateral Vocal Fold Paresis/Paralysis
Lauren	Strickland	Vocal quality complication following chondrolaryngoplasty: A reported case
SANJAY	SUBBIAH	TOMATIS AUDITORY STIMULATION AS AN ADJUVANT THERAPY IN TREATING REFRACTORY MTD.
Snehitha	Talugula	Examining the Effect of Bariatric Surgery on Voice Outcomes
Nizar	Tejani	Depression and Anxiety in Patients with Subglottic Stenosis
Ruben	Ulloa	Perceptions, Utility, and Influence on Decision Making of Online Support Group Members for Retrograde Cricopharyngeal Dysfunction.
Emke	Van den Broek	Bilateral medialization thyroplasty in patients with vocal fold atrophy with or without sulcus; long term outcomes
Emke	Van den Broek	Glottic insufficiency caused by vocal fold atrophy with or without sulcus; systematic review of outcome measurements
Maxine	Van Doren	Hard glottal attacks in typical and dysphonic speakers
Maxine	Van Doren	Voice quality differences in English and Spanish bilinguals

Eleni	Varelas	Otolaryngologic manifestations in long-COVID
Eleni	Varelas	Presence of p16 immunohistochemistry in laryngeal dysplasia: A systematic review and meta-analysis
Lisa	Vinney	Indexing cognitive resource usage of Conversation Training Therapy and Resonant Voice Therapy
Grace	Wandell	Predictors of clinical benefit following superior laryngeal nerve steroid injection as a treatment for neurogenic cough
Philip	Weissbrod	Differentiation Of Bolus Texture Via High-Density Surface Electromyography
Jonathan	West	Local Reaction Causing Airway Compromise Following Vocal Fold Injection Augmentation with Carboxymethylcellulose
Theresa	Yao	Phonation Resistance Training Exercises and Inspiratory Muscle Strength Training with an Older Adult with Presbyphonia
Elizabeth	Young	A Survey of Stimulability Practices and Attitudes in Speech-Language Pathologists Specializing in Voice Disorders
Ryan	Ziltzer	Safety of open airway reconstruction in high-risk post-COVID patients: a case-matched control study
Ryan	Ziltzer	Evaluating Vocal Gender Dysphoria and Desire for Gender-Affirming Voice Therapy and Surgery: A Voice-specific Follow-up to the 2015 U.S. Transgender Survey
Ryan	Ziltzer	Cricothyroid muscle botulinum toxin chemodenervation to treat recalcitrant high-pitched functional dysphonia in an adult male
Ryan	Ziltzer	IgG4-related laryngeal disease successfully treated with inhaled steroids
Ryan	Ziltzer	Creation of open bedside tracheostomy program at a community hospital with a single surgeon
