

## 2021 Poster Presentations

Presenter:	Abstract Title:
Temitope Adeyeni-Fanimo	Treating High-Grade Posterior Glottic Stenosis with Complete Resection of Bilateral Glottis and Paraglottic Space
Ari Agha	Transgender Singing Voice Change with Exogenous Testosterone: A 30 month Case Study
Mateus Aires	Role of intraoperative frozen biopsy in laryngeal lesions suspicious of malignancy
	Effect of Wendler Glottoplasty on Voice and Quality of Life of Transgender Women
Laura Allen	Voice disorders in the workplace: a scoping review
Ameen Amanian	Unintended Side Effects of Electronic Cigarettes in Otolaryngology – A Scoping Review
Jaspreet Amar	Paragangliomas of the Larynx: A Systematic Review
Jennifer Anderson	In-Office Endoscopic KTP Laser Ablation In-Office Endoscopic KTP Laser Ablation of RRP: Just How Painful Is It?of RRP: Just How Painful Is It?
Vrushali Angadi	Developing and testing a smartphone application to enhance adherence to voice therapy
Shaghauyegh Azar	Total Tracheoesophageal Puncture Failure: A Scoping Review of Patient Characteristics and Etiologies
Samir Ballestas	Voice Feminization Surgery: 100 cases - The Colombian Experience
Amanda Bastien	Office Laryngoscopy in the Time of the COVID-19 Pandemic: Is it Aerosol-Generating?
Diana Becker	The Immediate Effects of Mindfulness Meditation on Acoustic, Aerodynamic, and Patient-Perceptual Voice Outcomes.
Hassan Beesley	Review of Traction Pharyngoesophageal Diverticula
Michael Benninger	Coblation cordotomy for the management of bilateral vocal fold immobility/paralysis
Yael Bensoussan	Artificial intelligence and laryngeal Cancer: from Screening to Prognosis — A state-of the Art Review
Carly Bergey	Problem-Based Learning and the Development of a Gender-Affirming Voice Clinic Within a University Setting
Timothy Blood	Botulinum Toxin Induced Profound Dysphagia Treated with Pyridostigmine in a patient with Parkinson's disease and Cervical Dystonia
Dominique Bohorquez	Dysphagia Predicts Need for Surgical Voice Restoration in Vocal Fold Immobility
Frank Boutsen	Cepstral analyses of phonation in Parkinson's Disease before and after SPEAK-OUT!®
Gurmehr Brar	Perceptions of Vocal Performance Impairment in Singers with and without Hearing Loss
Adrian Castillo-Allendes	Projections for the assessment and cross-system therapies for voice and swallowing disorders: a scoping review.
M. Eugenia Castro	Voice Problem Impact Scale (VPIS)
Daniel Cates	Practice Trends in Medialization Laryngoplasty for Adult Unilateral Vocal Fold Immobility
Keith Chadwick	Presentation and management of subglottic stenosis in acute mixed phenotype leukemia
Hiu Fung Chan	Digital Speech Handicap Index (SHI): a path to validation
Sara Charney	Investigation of singer's dystonia with fiberoptic high-speed videoendoscopy during singing and non-singing tasks
Anuja Chhabra	Yoga as an alternative treatment for MTD
Alex Chiluisa	Amplifying a Physician's Reach into the Larynx: Initial Prototype and Testing of a Novel Steerable Laser Fiber for In-Office Laryngology Procedures
Christine Clark	Modified thyroplasty window: a novel open cervical approach to pyriform sinus diverticulectomy
James Cochran	The use of oxygen blender in jet ventilation transoral microsurgery – a novel approach
James Cocinan	A novel approach to subglottic stenosis dilation in severely obese patients
Juliana Codino	Automated quantification of inflection events in the electroglottographic signal
Sara Davis	
Sala Davis	Does the daily practice of a structured voice exercise protocol affect the fitness instructor's self-perceived vocal effort, vocal fatigue, and voice handicap?
Ashley Diaz	Large Tracheal Granular Cell Tumor - A Case Report
Jennylee Diaz	Perceived Voice Changes Among Speech-Language Pathologists During the COVID-19 Pandemic
Ashley Diaz	Right vocal cord paralysis caused by histoplasmosis: a case report and review of the literature
Corina Din-Lovinescu	Outpatient Laryngology in the Time of COVID-19
Emily Duke Wishik	Student-clinician and participant outcomes in a virtual gender affirming communication group
Hagar Feinstein	Remote Data Collection in Pediatric Voice Research - Adapting Research to COVID-19 Related Challenges
Melissa Ford	Voice Patients with Acid Reflux: Students' Perceptions of the Efficacy of Lifestyle Changes
Juliana Franco	Bachianas Brasileiras n.5: Brazilian Portuguese diction and the main pitfalls for the non-native singer
Gary Gartling	Investigating the Occurrence of Vocal Fold Atrophy Following Intracordal Glucocorticoid Injection in a Rabbit Model
Shirley Gherson	Provider Satisfaction with Teletherapy for Voice Disorders
Raluca Gray	Virtual vs In-Person Voice Therapy: the Patient Perspective
Barite Gutama	Emergency Presentation of A Laryngeal Inflammatory Myofibroblastic Tumor
Emily Hartmann	Salient Unified Analysis of Voice (SUAV)
Brian Hernandez	Normative Values for the Laryngopharyngeal Measure of Perceived Sensation
טוומוו חכו וומוועכנ	The Demographics of Patients Presenting for Laryngological Care at an Academic Medical Center
	Nodal Recurrence of Laryngeal Chondrosarcoma in a Clinically Negative Neck

Amanda Hu	Improvement in Work Productivity After Speech Therapy in Professional Voice Users
	production of the second secon
lan Joseph	Early Tracheostomy Management Varies across Specialities
Matthew Kaufman	The Incidence and Evaluation of Postoperative Dysphagia Following an Anterior Cervical Discectomy and Fusion
Suat Kilic	Bilateral internal laryngomucoceles causing dysphagia in an elderly man: A case report and literature review
Samuel Kim	IgG4- Related Disease in the larynx presenting with bilateral vocal cord fixation and posterior cricoid ulceration
Samantha Kridgen	The Impact of Synchronous Audio and Video Telehealth on Voice Therapy Attendance
Deirdre Larsen	Patient-Reported Outcomes after False Vocal Folds Injections for Adductor Spasmodic Dysphonia
Taylor Lear	Malignant Transformation in Laryngeal Dysplasia Treated with Photoangiolytic LASER–A Systematic Review and Meta-analysis
Morgan Lee	What Treatment for Chronic Cough Results in the Greatest Improvement for Patients Presenting to an Otolaryngologist?
Alice Liu	Office vocal fold injections: Patient reported outcomes and decisional regret
Adam Lloyd	Current usage of respiratory muscle strength training in voice habilitation and rehabilitation
Adam Lloyd	Prevalence and incidence of vocal pathologies among classical, musical theatre, and contemporary commercial music undergraduate students
Christopher Lui	Predictive Factors of Dysphagia in Patients Undergoing Tracheal Resection for Airway Stenosis: A Cohort Study
	Decision-making in the Treatment of Idiopathic Subglottic Stenosis: A Survey of Laryngologists
Donna Lundy	Impact of trismus on swallowing outcomes after chemoradiation for oropharyngeal cancer
Cate Madill	Active ingredients of voice therapy for muscle tension voice disorders : a retrospective analysis of clinical data
Brian Manternach	The Impact of Semi-Occluded Vocal Tract Warm-Up and Cool-Down Procedures on Singing Teacher Voice Fatigue After Online Instruction: A Pilot Study
Judy Marchman	Singers' Education Preferences for World Voice Day Outreach
Sean McDermott	A Modified Topical Laryngeal Anesthetic Technique for Minimizing Cough in the Era of the Coronavirus Pandemic
Victoria McKenna	Treatment Attendance for Gender Affirming Voice Therapy: A retrospective analysis of treatment trends before and during the COVID-19 pandemic
Nathaniel Miller	Lesser-Known Uses of GABA Analogue Medications in Otolaryngology: A Systematic Review
Claudio Milstein	Etiologies of Upper Airway Dyspnea: Not everything is ILO
Brett Myers	Behavioral treatment approaches to lowering pitch in the female larynx
Kiattipoom Nantanukul	Systematic Translation and Cross-Cultural Adaptation of the Trans Woman Voice Questionnaire (TWVQ) in Thai
Andrew Neevel	Dysphagia in oculopharyngeal muscular dystrophy: a case series
Duong Nguyen	The effects of wearing a surgical mask or KN95 mask on some perceptual and acoustic measures of speech
Yael Oestreicher Kedem	Vocal process granuloma response to proton pump inhibitors
Caitlin Pacheco	Natural Progression of Untreated Zenker's Diverticulum
Kavya Pai	Localized Laryngeal Amyloidosis: A Systematic Review
Brittany Perrine	A randomized, single blind placebo-controlled trial to determine the impact of fish oil on young vocal performers self-perception of their voice
Pranati Pillutla	Incidence of Tracheoesophageal Puncture following Total Laryngectomy in the Medicare Population
Michal Plocienniczak	Evaluating for Possible Health Disparities Amongst Limited English Proficient Patients Undergoing a Tonsillectomy.
Meher Rakkar	Artificial Intelligence as a Treatment Outcome of Feminization Laryngoplasty in the Care of Transgender Patients
Derrick Randall	Increased incidence and prevalance of idiopathic subglottic stenosis identified in Alberta
Shambavi Rao	Readability Analysis of Spanish Language Patient-Reported Outcome Measures in Laryngology
	Readability of Commonly Used Patient Reported Outcome Measures in Laryngology
Holly Reckers	Self-perceived effort and perceptual assessment of strain during ascending and descending glissando: a pilot study.
Allison Reeder	Inhaled Steroids and Dysphonia: Case Series and Literature Review
Robin Rice	Predictors of response to therapy in patients with paradoxical vocal fold motion disorder
Sandra Rios-Ayala	DELAYED TRUE VOCAL FOLD CLOSURE DURING COMPRESSION PHASE OF COUGH IN INDIVIDUALS WITH
84-44b 5 11C	UNILATERAL VOCAL FOLD IMMOBILITY
Matthew Rohlfing	Historical Review and Modern Case of Spontaneous Laryngeal Abscess
Sandra Rojas	How Does Our Voice Change as We Age? A Systematic Review and Meta-Analysis of Acoustic and Perceptual  Voice Data From Healthy Adults Over 50 Years of Age
Sandra Rojas	A cross-sectional study of perceptual and acoustic voice characteristics in healthy aging
C. Yoonhee Ryder	Laryngeal Cryptococcosis Masquerading as Sarcoidosis
Erica Santos	Agressive recurrent laryngeal papillomatosis: a case series
	Surgical treatment of cervical abscess caused by pyriform sinus fistula: a case report
	Glottic Neurofibroma - A Case Report.
	Laryngeal sarcomatoid carcinoma: case report
	Laryngeal epidermolysis bullosa in infant: a case report
Las Causa	Laryngeal amyloidosis: a case series and review
Lea Sayce	Innovations in Modeling of Voice Disorders: Development of Surgical Approaches to Advance Preclinical Laryngology Research
Breanne Schiffer	A Single Institution's Early Experience with Retrograde Cricopharyngeus Dysfunction

Matthew Silverman  Supraglottol Pressure Modeling in Excised Canine Larynges  Bonnie Smith  Citated Change and Viole Impacts: A Postcart from Florida  Phillip Song  Under the scape: force pressure monitoring during suspension microlaryngoscopy.  Phillip Song  Securing the airway for subjective stenois and bilateral vocal fold immobility: A review of 106 consecutive endotracheal intubations.  Amanda Stark  Laryngoscopy Companison in Chronic Refractory Cough (FCC) and Voice Disorders  Preserving the Larynx in High Grade Chondrovalionecrosis Patients: A report of 8 cases and review of the literature  Mandee Starn  Implications of Low Ferritin on the Assessment and Treatment of Eli.O  Timothy Stockdale  Training for Dysphagia Management - Adapting our Practices to Meet the Needs of Students and Patients  Annit Syal  Prognosise and Treatment Differences between Tia and T 136 lottic Cancer  Zoe Thijs  Partner Perception of Affective, Behavioral, and Cognitive Reactions to Voice in People with Parkinson's Disease  Harman Institution- Wide Trachestosmy Broading Team: Initial Caregiver Perceptions  Lauren Timmons Sund  Respiratory Particle Emission During Voice Assessment and Therapy  Courtney Tipton  Compansion of esophagram and pH testing for the diagnosis of reflux  Wilchelle Toth  "Singing with Cramps"  Michelle Toth  "Singing with Cramps"  The Manifestation of Vocal Ratigue: A Survey of Professional, Female Opera Singers and a Single-Subject Study of One Professional Opera Singer  The relationship between clinicion rated dysphania severity and patient self-perception: The effect of voice sample type  Briana Vamosi  The Treatment of Essential Voice Team and Vaccal Fold Bowing: A Case Study  Prevalence of anxiety Invanies on Diverticulum  The relationship between clinicion rated dysphania proteins diagnosed with subglottic stenosis  Benjamin van der Woerd  Gender Spectrum Voice Inventory: A pilot study  The Lost Race: An Eusive Finish Line for an Elite Athlete's Conversion Disorder  Firi Walsh  The Lost Race: An Eusi	Wine i Chall	Advance and a service during injuries from the service of the serv
Bonie Smith Climate Change and Voice Impacts. A Postcord from Horida Phillip Song Under the scope: force pressure monitoring during suppension microlaryngoscopy. Phillip Song Securing the cirvay for subgistitic stenosis and bilateral vocal fold immobility: A review of 106 consecutive endotrocheol intubations. Annanda Stark Laryngoscopy Comparison in Chinnic Refractory; Cough; (ECC) and Voice Disorders Preserving the Carryx in High Grade Chondrordancerosis Patients.
